Consultation

When planning a community project it's essential that you have a very clear idea of the needs of your community.

Community Consultation is a highly valuable process through which the collective voice of a community can be heard. Good community consultation will inform, guide and ensure the success of any project and open the door to funding opportunities.

We understand that your project, your needs, the resources available, time scales and the level of results or depth of the consultation required will be unique to you.
