

Help us find your Community Building!

In order to place your Community Building onto our Community Building map we need to have more than your postcode. We need to find the longitude and latitude of your Community Building. Doing this for each building is a long process, and if we have never visited your building before, almost impossible!

But you can help us find it and make sure your Community Building features on our map! Just follow the instructions below.

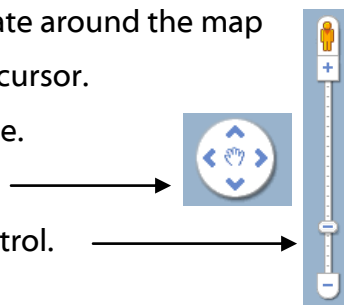

1. Open Google Maps - Go to www.google.co.uk/maps
2. Enter the postcode of your Community Building into the search bar and left-click 'Search Maps'. This will get you close to your Community Building, but we want to be as accurate as possible.

3. Navigate to your Community Building. You can navigate around the map by holding down a left-click and dragging the mouse cursor.

You can zoom by using the scroll wheel on your mouse.

You can also navigate by using the circular control.

You can also zoom in and out by using the sliding control.

4. When you find your Community Building, right-click right on top of the building and left-click on 'What's here'.
5. In a few moments the postcode you entered in the search bar will change to the longitude and latitude of the exact spot that you clicked. This is the longitude and latitude of your Community Building.
6. Take a note of these numbers and email us with the name, the postcode and longitude and latitude of your Community Building - communitybuildings@somersetcc.org.uk

After we receive your email we will update our map as soon as we can with the location of your Community Building.
